GROWSPAN SINGLE BAY HIGH TUNNELS ARE ECONOMICALLY PRICED, LEADING TO QUICK PROFITS

Our Single Bay High Tunnels extend growing seasons, allowing growers to get crops to market earlier and to potentially increase profits by 50 percent. These high tunnels can improve crop quality and have a low cost per square foot. Single Bay High Tunnels provide a well-sealed tunnel during colder months, but can be quickly ventilated in warmer months, leading to an ideal growing environment that also protects crops from inclement weather, disease and pests.

The GrowSpan Single Bay High Tunnel Advantage:

- NRCS funding available - Visit your local NRCS office for details.
- Triple-galvanized, USA-made, steel frame - Corrosion resistant and long lasting.
- Multiple covering options.
- Round Style with 7' rafter spacing.
- 24' and 28' widths available.

- 4' sidewalls and high clearance - Plenty of growing space.
- Ridge purlin and heavy-duty ground posts included.
- Unique cross-bracing feature adds extra strength and durability.
- 20'W x 10'H Roll-Up Door - Quickly open with our Hand-Crank Assembly.
