

# SERIES 500 TALL

## GrowSpan Series 500 Tall Greenhouses are our most economical, extra-tall structures

The Series 500 Tall Greenhouse is available with multiple cladding options and provides the ideal environment for increasing yield, quality and profitability by up to 50 percent. These greenhouses can be built anywhere and maximize your business potential.

### The GrowSpan Greenhouse Structure Advantage

**Extra-height to mitigate humidity and support environmental control.**

**Fully automated blackout systems available.**

**20', 24', 30', 35' and 42' widths** - With American-made, triple-galvanized steel frame.

**Multiple purlins for structural strength and versatility.**

**Roll-Up or Drop-Down Sides** - Easily operate with a "Twist-of-the-Wrist" Assembly.

**Turnkey and custom designs** - Ensure your operation gets the ideal structure.

**Environmental control** - Produce thriving crops in any region.

**Experts on staff** - GrowSpan Greenhouse Specialists have industry experience and can provide invaluable advice.

**In-house services** - Streamline your project with in-house financing, design, engineering and installation.
