

NRCS FUNDING

It's easy: **apply, qualify and** receive a free high tunnel

In an effort to support locally grown food and our nation's growers, the National Resources Conservation Service is funding high tunnels for farmers and growers of all experience levels. By using an NRCS-funded high tunnel, growers will be able to support the NRCS's environmental initiatives, improve their quality of produce and increase profitability. It isn't difficult to qualify, and you can receive thousands of dollars to purchase a high tunnel.

The GrowSpan NRCS Funding Advantage

Applying is easy - Own agriculture or forest production land or work in a related field on eligible land.

Helps conservation by - Limiting pesticide use.
Supporting healthy, farmable soil.
Saving energy.

Helps growers by - Extending growing seasons.
Limiting pest- and weather-induced damage.
Improving quality, yield and profitability.

Visit your local NRCS office by checking
www.nrcs.usda.gov and send us -

NRCS form 1202 Conservation Program Contract w/ two electronic NRCS signatures.
NRCS form 1155 Schedule of Operations.
NRCS form 1236 Assignment of Payment

We have worked with many NRCS grant recipients.
