

GOTHIC MULTI-BAY

GrowSpan Gothic Style Multi-Bay Tunnels

provide an expansive growing space at the best price

Gothic Style Multi-Bay Tunnels improve on the traditional high tunnel benefits, allowing for economical season extension on the largest scale. These tunnels combine durable construction with exceptional light transmission and quick and easy ventilation, so growers can produce a wide variety of field-grown crops and berries and maximize profitability.

The GrowSpan Gothic Style Multi-Bay Tunnel Advantage

Expansive growing area - Available in 3 bay or 6 bay options.

Exceptional light transmission - 6 mil 4 year single layer film promotes abundant natural sunlight.

Durable construction - Structural steel framing and steel ground posts offer reliable support.

24'W bays with 3 purlins and 6' rafter spacing.

Added wind resistance - Designed with curtain skirt, curtain pocket and rope that installs in zig zag pattern over each bay.

Easy ventilation - Manual roll-ups on outer sidewalls allow for on-demand natural ventilation.

8'10"W x 6'6"H Doors - Included on each bay endwall and slide open for easy access.
